

The Mission

"To provide effective and affordable security training to places of religious worship"

About Kingswood Security Consulting

Kingswood Security Consulting, LLC is a Minneapolis based security risk management firm which specializes in church security awareness training, proactive security measures and security risk assessments.

Simon Osamoh is Founder and Director of Kingswood Security Consulting. A recognized counterterrorism and organized crime specialist spent 14 years with Thames Valley Police in England as a Detective working on serious and organized crime. Notable cases include the investigation of the "liquid bomb" terrorism plot in 2006, which changed aviation security regulations worldwide, creating the 3-1-1 rule. Simon later became Special Operations Security Captain at the Mall of America, focused on counterterrorism and managing the behavior detection unit, a team highly skilled in the use of behavior analysis to identify suspicious activity. He works closely with places of religious worship, helping them understand security and provides training. CSAT, a church security awareness training program was created to improve the skills of church security. Simon has lectured on terrorism, organized crime and violence in places of worship at the University of Minnesota -Twin Cities, University of St Thomas, Saint Mary's University of Minnesota and Metropolitan State University. Simon serves on the board of directors for the FBI Minneapolis Citizens Academy Alumni Association, committee member of InfraGard Minnesota and member of Minnesota Association of Church Facilities Managers (MACFM)

Church Security Awareness Training

It's a tragic fact that violence in churches is on the rise. Events such as the mass killings at Emanuel African Methodist Church in South Carolina remind us that we need to equip staff and volunteers in how to recognize and respond to suspicious behavior. Could what happened in South Carolina happen at your church? Is your staff prepared and trained in matters of safety?

The CSAT situational awareness training class is uniquely designed to educate church safety teams, volunteers, ushers, greeters and security leaders in how to categorize and respond to suspicious activity in a variety of church open door environments to raise awareness and prevent harm.

This presentation uses biblical scripture and security principles to raise awareness on how to respond to suspicious behavior in a church environment

The presentation features:

- **Biblical Safety Teaching**
- **Statistics on Church Violence**
- **Church Case Studies**
- **Circles of Security**
- **Situational Indicators**
- **Defining Suspicious Activity**

Objectives

To provide Christian based security training to participants, help them mitigate the likelihood of a violent act and equip them with the knowledge and tools to respond quickly and safely to suspicious behavior.

Proactive Security Training

CSAT™ Programs

- CSAT™ Security Team Course
- CSAT™ Situational Awareness Course
- CSAT™ Supervisors Course
- CSAT™ 1 Day Security Seminar

Registration Information

One of our security professionals can attend your place of worship and teach the CSAT Situational Awareness class. We also hold a number of classes throughout the year in the metro area for people to attend. This 2 hour presentation is perfect for a staff training day, whether it's to educate all of your worship team and leadership board or to train people who have just joined your ministry as an usher, greeter or part of the safety team.

To schedule training, find a class near you or for more information on CSAT programs go to: www.kingswoodsc.com

Who should attend?

Church staff, preschool workers, ushers, greeter's volunteers or anyone with an interest in protecting a place of religious worship.

How long is the class?

This 2 hour presentation is lead by trained security professionals with experience from law enforcement to physical security
